

TRI-City ARC Breakfast NET Preamble

One minute prior to net time:

This is <Call Sign> and I am about to start the Tri-City ARC Breakfast net. If there is anyone who needs to make a quick call on the Salem repeater, please go ahead and do so now as I will start the net in one minute.

At 08:00 - Read Preamble

Calling the Tri-City ARC Breakfast Net

Calling the Tri-City ARC Breakfast Net for DAY <month><day><year>

This is <Phonetic Call Sign>, my name is <Name>, and I am located in <Town and state>. I will be your net control station for this session of the net. All licensed Amateur Radio Operators are welcome to check into the net. This net operates on the 147.060 MHz repeater, with a PL tone of 156.7 Hz, and Echolink W1DX-R Node 342027. The net is held at 8:00 AM local time Monday through Friday.

The purpose of this net is to give local amateur radio operators a chance to socialize and hopefully give a good start to the day. This net is more of a round table than a directed net. So, each person should pass on to the next person instead of always going back to the net control. The net will close when we run out of things to say.

Begin to take check-ins

This is <Name>, <Call Sign>, your net control station for this morning. I will start taking check ins now, please come now with your call sign.
